

CONSERVATION 101
FRIDAY 3 MAY 2019
09.30am – 12.15pm
ENGINE SHED, STIRLING

Summary

The first in a series of CPD events run by Historic Environment Scotland (HES), in conjunction with the Royal Incorporation of Architects in Scotland (RIAS) and the Royal Institution of Chartered Surveyors (RICS).

Hear from HES subject matter experts, discover the philosophy and ethics of building conservation. Learn how to identify common decay mechanisms and building defects and understand the listing process and what it means for you.

Programme

09.30	Tea & coffee on arrival
10.00	Conservation ethics and principles <i>Roger Curtis, Technical Research Manager</i>
10.45	Decay and defects in traditional buildings <i>Moses Jenkins, Senior Technical Officer</i>
11.30	Assessing and working with listed buildings <i>Elly McCrone, Head of Designations</i> <i>Dara Parsons, Team Leader, Heritage, Casework</i>
12.15	Close
